

Resonex Audio

END USER LICENSE AGREEMENT

License Agreement for Use of Resonex Audio Sound Effect Libraries

This End User License Agreement (this “Agreement”) is made between Resonex Audio (the “Licensor”) and You (the “Licensee”). By purchasing, downloading, or using any sound effect libraries provided by Resonex Audio, including the “UI Sounds – Digital” asset pack, you agree to the terms and conditions of this license agreement.

1. Grant of License

The Licensor grants the Licensee a non-exclusive, non-transferable, royalty-free license to use the sound files (the “Sounds”) worldwide for the duration of the copyright, under the conditions specified in this Agreement.

2. Rights Granted

Under this Agreement, the Licensee may:

Use the Sounds in an unlimited number of personal, commercial, and educational Projects, including video games, apps, trailers, films, animations, podcasts, UI prototypes, and multimedia installations.

Synchronize the Sounds with any audio-visual or interactive media, including websites, games, streaming content, films, commercials, and product presentations.

Modify, edit, and process the Sounds to fit the creative needs of the Project, provided that the original files are not redistributed as standalone content.

3. Limitations

The Licensee is strictly prohibited from:

Claim authorship or ownership of the original or modified versions of the Sounds.

Use the Sounds or any derivative version to train, fine-tune, or develop artificial intelligence (AI) or machine learning (ML) models.

Redistribute, resell, sub-license, or share the Sounds—whether in original or modified form—in any of the following forms:

- As standalone audio files
- As part of any sound libraries, sample packs, soundboards, or similar compilations intended for reuse by third parties

Include the Sounds in music libraries, albums, or soundtracks (OSTs) as extractable or standalone audio elements.

Upload or store the Sounds in unsynchronized form on public or private internet servers, cloud platforms, or file-sharing systems that allow third-party access.

Make the Sounds extractable by end users in any interactive project.

4. Copyright

All Sounds remain the sole intellectual property of Resonex Audio. Even if the Sounds are altered or processed beyond recognition, the original copyright remains in effect. No part of the content may be claimed as the Licensee's original work or used to create new copyrighted music without explicit written permission from Resonex Audio.

5. Liability

Licensor shall not be held responsible for any direct, indirect, incidental, or consequential damages resulting from the use of the Sounds. The Licensor's liability is limited solely to replacing the affected sound file(s) at no additional cost.

6. Governing Law

This Agreement shall be governed by the laws of the jurisdiction in which the Licensee resides or operates, unless otherwise required by applicable international copyright laws.
